### California Proposition 65 Declaration

Dear Valued Customers;

This certificate is to inform Brikksen customers that items sold Brikksen contain chemicals which are listed on the California's Safe Drinking Water & Toxic Enforcement Act of 1986.

The Act, commonly known as Proposition 65 (PROP 65), establishes a list of chemicals which the State of California has determined to present a risk of cancer, birth defects or other reproductive harm.

This list of chemicals can be found at:

<https://oehha.ca.gov/proposition-65/proposition-65-list>

A Prop 65 warning means one of two things: (1) The business has evaluated the exposure and has concluded that it exceeds the "no significant risk level"; or (2) the business has chosen to provide a warning simply based on its knowledge about the presence of a listed chemical without attempting to evaluate the exposure.

Brikksen has chosen to provide a warning based on its knowledge about the presence of one or more chemicals without attempting to evaluate the level of exposure. Products marketed or sold by Brikksen may contain listed chemicals at levels that are below the Prop 65 level of concern, or could even be zero. However, out of an abundance of caution we are electing to declare all products sold to contain one or more of the Prop 65 chemicals.

Listed chemicals Present or potentially present- Nickel (Metallic), Nickel compounds, cadmium and cadmium compound, Lead and Chromium (hexavalent compounds).

**WARNING:** this product can expose you to chemicals including Nickel, which is known to the State of California to cause cancer. For Further information, go to <https://www.p65warnings.ca.gov/>
